Book and every description of Commercial and
Law printing, in the best manner at Gazette Job
Rooms.
Address at the Post Office at Janesville, Wis., at
second-class matter.
Republican State Ticket.
For Governor—
WILLIAM E. SMITH, of Milwaukee.
For Lieutenant Governor—
J. M. BINGHAM, of Chippewa.
For Secretary of State—
HANS B. WARNER, of Pierce.
For State Treasurer—
RICHARD GUENTHER, of Winnebago.
For Attorney General—
ALEXANDER WILSON, of Iowa.
For Superintendent of Public Instruction—
W. C. WHITFORD, of Rock.
COUNTY SUPERINTENDENTS
First District—
J. W. WEST, of Union.
The harmony in the Republican party
in Wisconsin is a stumbling block to the
Democrats.
It would afford the Democrats a little
pleasure if they could throw some mud at
the present State administration.
Why don't some of the enterprising
Democratic Speakers give the particulars
regarding the attempted murder of Post-
master Nix?
The State administration being abso-
lutely free from scandal is a great annoy-
ance to the Jenkins ticket. It will more
than "annoyance" on the day of election.
Should Tilden nominate himself in 1880,
as he evidently will, and Grant should head
the Republican ticket, there would be no
8 to 7 business in deciding the election.
The Democratic defeat would be akin to
that of 1872.
A Chicago gentleman, says the Chicago
Times, who has been in Europe for some
time, says he recently saw D. D. Spencer,
the ascending bank president, in Stras-
burg, Germany. The Chicagoan says
Spencer is nearly destitute and wants to
return to Chicago. The creditors of the
bank, also, want him to return.
The executive portion of the Demo-
cratic State Central Committee held a
meeting at Milwaukee last Friday night
to discuss the campaign question, and to
make some arrangements if possible, to
wake up the party and enforce a little en-
thusiasm in it. The "embarrassing pros-
pect of an easy victory" did not seem to
conturb the Committee, but it decided to
make the best fight possible with a weak
ticket and a small amount of money. Mr.
Jenkins will try and make ten or twelve
speeches during the campaign and local
speakers will be engaged for local work.
They decided that their case was too hop-
less to get speakers from abroad.
THE MILITARY BUGBEAR.
We have received from our esteemed
townsman—Mr. A. H. Sheldon—who is
now traveling with his family in the South
a copy of the Daily Charlotte (N. C.) Ob-
server, of September 20. Of course the
Observer is Democratic, and while it ap-
peals for "fraternization," it is very careful
to give the public to understand that Repub-
licans will be shown no quarters in that
State, so far as the Observer can help it.
It denounces the President's
Youngstown speech—one remarkable for
its conservatism and conciliatory views.
It abuses General Sherman for writing his
manly and courteous letter to the Salis-
bury (N. C.) Confederates. It demands
that there shall be no military in the South,
and that the Southern people be left to
vote as they please, and to do as they
please and not be dictated to by the Na-
tional Government and National bayonets.
This cry of bayonets and military rule
was heard during the entire extra session
of Congress. The Democrats made it
their hobby, and the Southern papers still
keep it up. And even Mr. Ewing in Ohio,
when he sees that the soft money question
won't save him, is turning his attention to
the bayonet question, and he fears that if
the Republicans remain in power much
longer, and send many more soldiers South
to control the polls, that the liberties of the
"Jear people" will stand in imminent dan-
ger. It was shown during the extra ses-
sion by Senator Blaine that the cry of
"No troops at the polls" was a dishonest
one, and its hypocrisy and
transparent purpose is exposed by the
fact that the Government has not had for
a long time, and has not now, any troops
in the South it could use for the purpose
claimed by the Democrats. In April last,
and there has been no change since then,
the number of troops in the South was as
follows:
In all the State of North Carolina, there
are but 30 United States soldiers, and these
are at a small fort at the mouth of Cape
Fear river.
In Mississippi where so many scenes of
assassinations and murders are witnessed,
there is not a single soldier.
In Tennessee there is not one.
In Georgia there are 29 United States
soldiers.
In Kentucky there are none.
In Louisiana there are 239 soldiers in
forts.
In Delaware there are none.
In Maryland there are 192 soldiers at
Fort Mifflin.
In Missouri there is not one.
In South Carolina there are 123 soldiers
guarding Charleston harbor.
In Texas there are none.
In Alabama there are 32 United States
soldiers in an arsenal.
In Arkansas there are 57.
Even the platform of the Wisconsin
Democracy has something to say about

THE JANESVILLE GAZETTE.
VOLUME 23 JANESVILLE, WISCONSIN, MONDAY, SEPTEMBER 29, 1879. NUMBER 174

these bayonets, and deplores their use! But here we have 1,166 soldiers to intimidate fifteen millions of people! Less than one soldier to every county in the South and less than one to every 700 square miles of territory! In no country in the civilized world can there be found so few soldiers as are found in the South, and yet the Democratic party complain of military rule! The figures here given, which are official, show the miserable hypocrisy of the Democratic leaders and press in crying about bayonets at the polls.

THE NEWS.

A Milwaukee Elevator Struck by Lightning.
DEADWOOD.
Clearing Away the Debris and Rebuilding the City.
DEADWOOD, D. T., Sept. 27.—The city has presented an unusually active appearance to-day, the smoke and flames having cleared away enough to allow the mass of ruins to be cleared, and the erection of tents and small wooden shanties, of which there have been from seventy-five to 100 put up. Almost every class of business is represented on Main and Sherman streets, and all having an immense rush of custom, although prices have not advanced except in a very few instances where the demand for some articles was greater than the supply, and the advance has been slight.
All the daily papers are issuing on small sheets, being struck off at Lead City and Centre. They contain a little else than fire news.
Lumber is being hauled in every direction by every available team in this vicinity, and bringing \$40 per thousand. The rails are running night and day, but not enough can be brought in to supply the demand. Some had shanties erected within five hours from the outbreak. All day telegrams have been pouring in offering stock of g. i. money, clothing, food, etc., but getting nothing but merchandise. It has been said that no relief committee has been organized yet, and probably there will be none. People who are bankrupt and homeless do not want to accept aid from the outside world. Merchants and others are very generous, able, and willing to stand their share of the burden.
SAMMY'S LATEST.
WASHINGTON, Sept. 29.—Mr. Tilden has been heard from again through a gentleman who arrived here this morning, and who has been quite prominently identified with his political interests. This gentleman has lately spent two days with Mr. Tilden at his country seat. This friend represents him as taking a very deep interest in the re-election of Gov. Robinson, and not so much on account of his general bearing upon the question of the Democratic nomination, as his desire and determination to crush John Kelly and Tammany. This friend said Mr. Tilden was, in all probability, doing more to elect Robinson than if he were himself the candidate. His political sagacity and large experience are being brought into full play, and he is contributing largely from his personal means to carry out his own plan of the campaign. He has made up his mind to destroy Kelly and Tammany if it can possibly be accomplished. Concerning the result of the next National campaign, this friend represents Mr. Tilden as greatly discouraged, and so strong is this feeling that he was not giving himself nearly as much concern to secure the nomination as the public seems inclined to believe. Mr. Tilden's reasons for not valuing the Democratic nomination very highly just now were thus stated: The Southern Democracy had handicapped the Northern wing of the party to an alarming extent during the last two years. The attitude of the Democrats upon the financial question, their many blunders in Congress, their repudiation of their State debts, their intolerance and outrageous treatment of those who differ with them in politics, and the many unpardonable and condoned political assassinations, all these things Mr. Tilden thought were fully calculated to make the Democratic nomination very desirable, except to the candidate who might be content to run simply for the honor of leading the party in the race. Mr. Tilden is represented as satisfied that he can obtain the nomination if he wants it, but these advantages can be relied upon as correctly stated, the gentleman who received these declarations and repeated them to friends here being entitled to full credit.

ROBERT COLLIER.
Opening Sermon in the Church of the Messiah.
New York, Sept. 28.—Robert Collier to-day formally undertook his new pastorate in the Church of the Messiah in this city. Shortly after 10 o'clock many persons had arrived. By 11 o'clock, when the Rev. Dr. Farley, of Brooklyn, accompanied by Mr. Collier, entered the church from the door on the right of the pulpit, every seat in the body of the building and in the galleries was occupied, and many persons were sitting on camp-stools in the aisles. Dr. Farley addressed the congregation and, in the course of his remarks, said: "I am sure you that know me will not doubt the deep interest which I feel in your welfare at this hour. It is with the highest joy and gratitude to God that I feel now that he is giving to you a pledge that if you are faithful to him, my brother, he will be faithful to you. He will be faithful to you in any event, but he will be by the blessing of God, able to build your church to at least its proportions, and possibly make it a live from which swarms shall go forth for the blessing of this great metropolis. These are simply words which I have to say to you by way of gratulation. When I turn to my brother himself, [Here Mr. Collier arose, and the two joined hands] it is the warmest and most cordial welcome. God bless you. He has brought you here. Christ and the holy spirit, I trust, are with you also, and in the great work—for it is a great work—which is before you. The hearts of your brethren here in the city of Brooklyn swell toward you this hour with sentiments of the deepest emotion, sentiments of the highest and deepest trust and most affectionate welcome."
Mr. Collier then advanced to his desk and gave out the twelfth hymn of the collection. When he had finished reading it, he added: "And the congregation will please sing with the choir. It will save me a great deal of trouble and scolding." A ripple of laughter went over the congregation, and the organ struck up the familiar tune of the "Days of Absence." Everybody joined heartily in the singing. Mr. Collier then announced as his text Psalm cxli. 1. "I was glad when they said unto me, Let us go into the house of the Lord." The sermon was upon the duty and profitableness of regular church-going. It was interesting and was listened to with rapt attention.

GENERAL GRANT.
SAN FRANCISCO, Sept. 28.—General Grant looks forward with pleasure to the Yosemite trip, as he will thereby, for one week, be out of the reach of the telegraph, of newspaper representatives, of the press, and the hand-shaking masses. Besides his own family and John Russell Young, only General Miller and daughter and Miss Sharon will accompany General Grant to the valley.
The family kept the Sabbath to-day by going to church and declining to receive visitors. They drove out this afternoon.
SAN FRANCISCO, Sept. 27.—To-day Gen. Grant has been allowed comparative quiet, his only engagement being to dine with J. C. Flood. With the exception of school children at Woodward's garden's to-morrow, public festivities in the city may be considered at an end.
BALLOONING.
ST. LOUIS, Mo., Sept. 28.—Professor John Wise made an ascension in his large balloon, "Pathfinder," from Lindell Park this evening, and he will remain aloft as long as the sustaining power of his balloon holds out. He says the ascension is solely in the interest of science, particularly meteorology. There was a brisk breeze when the fastenings were cut loose which carried the balloon in a northerly direction for perhaps a couple of miles at an elevation of from twelve to fifteen hundred feet. It then turned toward east and sailed away out of sight. Professor Wise expected to enter what he called the permanent eastern wind current at an elevation of about 1,500 to 2,000 feet, which he desired to keep in if possible and make his observations from, and to effect this more surely his ballast consisted only of a three-quarter inch rope 1,800 feet long, which trailed from the balloon. When the gas exhausts the balloon will descend and the end of the rope will lie on the ground, relieve the balloon of part of its weight and hold it steady. Geo. Barr, Teller of the St. Louis National Bank, who has made three ascensions, and takes much interest in the subject of air navigation, accompanied Mr. Wise. The party expects to remain in the air until 10 or 12 tomorrow and descend several hundred miles east of here.

AT LAST CONFESSIONS.
MADISON, Sept. 28.—The Madison Democrat, edited by Gen. A. C. Parkinson, Chairman of the State Central Committee, in an editorial this morning admits the truth of Republican charges as to the condition of the terrible outrages committed on Republicans in the South, but suggests no remedy. Moderate men, with this state of affairs conceded, can but conclude that the remedy can be only applied by supporting the Republican party.

LIGHTNING.
MILWAUKEE, Sept. 28.—Lightning struck the elevator of Angus, Smith & Co. Saturday afternoon, and set fire to it. The hoist of the day watchman, George Young, saved the building and its storage. The loss all told is about \$2,000.
The granary of Thomas Austin, in the town of Lake, was fired by lightning, and the building, stock, and sheds destroyed. Loss about \$3,000. No insurance.

A BLAINE BOUNCED.
WASHINGTON, Sept. 28.—Robert G. Blaine, Senator Blaine's brother, who has been assistant keeper of the Senate document room for several years, was removed by Sergeant-at-Arms Bright to-day. Blaine has been given leave of absence until Oct. 10, and he was dismissed without notification of any kind. No complaint was made against the manner in which he performed his duties, and the removal was undoubtedly made to make place for some Democratic office seeker.

BROKE JAIL.
STEVENS POINT, Wis., Sept. 27.—Three prisoners named Trux, Camp and Quick, escaped from the county jail here last night by digging down through the floor and out under the outside wall. Two of them, Trux and Camp, were sentenced this week, for stealing, to one year each in the State prison, and were to have been taken there on Monday next by Sheriff Finch. The other man, Quick, was arrested some time ago at Grand Rapids and confined in jail there, but broke out and

was recaptured and brought here for safe keeping.

CASUALTIES.
MILWAUKEE, Sept. 28.—Adolph Grassler, son of M. Grassler, was drowned this morning while playing on the river side at the foot of Cedar street.
John G. Bass died of lock-jaw, from the effects of a fall from a scaffold.

THE AUDIPHONE.
Experiments Made with a New Instrument for Conveying Sounds to the Deaf.
Cincinnati Gazette.
Prof. J. W. Graydon, of this city, has for some time past been experimenting with a new invention called the audiphone, which is intended to supplant the old trumpet for use by the deaf. There has been an audiphone invented in Chicago, but Prof. Graydon claims that his instrument is a great improvement upon that. The audiphone as constructed by Prof. Graydon consists of a small electro microphone, to the center of the diaphragm of which is attached a cord, which may be of any length, and to the other end of which cord is attached a small piece of wood. The manner of working the instrument is very simple, and can be briefly described as follows: The deaf person takes a firm hold of the piece of wood, and by means of the teeth and lower teeth, and the party desiring to converse with the deaf man talks through the electro-microphone attachment at the other end of the cord, holding the cord taut. The theory advanced is that the sound is conveyed through the nerves of the teeth and the bones of the face to the auditory nerve, which owing to some defect of the ear caused by disease is not approachable through the usual channel, thence to the brain. The instrument will only work, however, when deafness has been caused by disease. In case of paralysis of the auditory nerve it is useless. Some very interesting tests of the audiphone were made at the Deaf and Dumb Department attached to the Third Intermediate School yesterday morning. Among others was one of a bright looking colored girl, who was entirely deaf. The Professor talked to her at a distance of about twenty-five feet through the instrument, and she repeated to him everything which he said. Another was a little girl who had been deaf and dumb from birth. Through the audiphone, she understood the teacher in charge that she could hear that one statement of the Professor was made in a louder tone of voice than another, but she could not understand what he said, never having been able to hear such sounds before. In some other cases, however, the pupils upon whom the instrument was tried said in their native language that they were unable to distinguish any sound whatever. It is fair to presume, then, that the instrument will, as have the telephone and microphone, be greatly improved, and that at no distant day it will be of great service to those afflicted by deafness.

A COMPLICATED CASE.
The Troubles of an Obliging Conductor with an Obstinate Lady Passenger.
From the Indianapolis Journal.
The other day, as Conductor Minot, of the Pan-Handle, was leaving this city on his trip east, he found a female passenger who had a ticket to Dayton via the Cincinnati, Hamilton and Dayton. He explained that she was on the wrong train, that her ticket was not good, and that she could leave the train at Irvington and wait for the train on the other side, or he would send her back to the Union depot, where she could await the train on the other line over which she was ticketed. The woman seemed to understand the explanation but, as soon as Minot left her, an old lady who was occupying the seat in front of her, said: "These railroads are collegues together, and their tickets are good on any road. That is just a trick of the conductor to get money out of you and steal it from the company. This road goes to Dayton, and if I were you, I would sit right here."
When Minot returned, the woman could not be made to understand why her ticket was not good on any road running to Dayton, and in spite of the patient and polite explanations of the conductor, she persisted in not understanding it. Finally a kind-hearted Hebrew, who was seated opposite, thinking to relieve the embarrassment of the woman, offered to "take her ticket, and pay her fare to Richmond, over half the price." She accepted the offer, and put her ticket over to him, and he paid her fare to Richmond. Then she quieted down until Minot came through the car, when she asked: "Isn't that ticket worth more than the fare to Richmond?"
"Certainly; worth a third more," was the reply.
"Well, I ain't going to be swindled in that way, and I want my money back."
"I have nothing to do with that," replied Minot, "you sold your ticket; your fare has been paid to Richmond, and I cannot aid you."
Then she went for the Hebrew to help him of being a swindler, and he finally told her that all she wanted was his money, and she could have her ticket. Minot came back and she called him again and said:
"Give that man his money back so I can get my ticket, and I will leave this road, which is run by swindlers."
"Upon your agreement to leave the train I will do it," said he, "and send you back to Indianapolis."
He then gave the money back, and the ticket was returned. Presently the train stopped at Cumberland, and the conductor asked her to get off.
"I have changed my mind," was her answer.
"Then you must pay your fare."
"Pay my fare you swindler! Why, I can pay for every inch in the car that you have used, and my fare is paid."
"Of course I did, but I gave the money back."
"Yes, you gave it to the Jew. You don't pretend that you gave it to me. You want to rob me, but I won't allow it. I am on this train to go to Richmond, and I intend to do it," she said. Minot is consulting a lawyer on the case.

Weather Predictions.
Cleveland Plaindealer.
C. C. Blake, of Decatur, Illinois, has gained quite a celebrity for accuracy as a weather calculator. His horoscope for next month, and from thence to March, 1880, is as follows:
October, 1879—Will be warm and showery.
November, 1879—I hardly know what to say about this month; my calculations make it a sort of a "chopped sea"—a conglomerate mixture of all kinds of weather; but not very cold.
December, 1879—Will be like November, "only more so." It will be warm,

THE SEMI-WEEKLY GAZETTE.
Published every Tuesday and Friday, at \$3.00 per year in advance.
The Weekly Gazette
PUBLISHED EVERY THURSDAY.
Is the largest weekly newspaper in Wisconsin.
TERMS: \$1.00 per year, in advance. Single copies, 5 cents. An extra copy sent for one year to any persons procuring a club of 5 names.
Address, GAZETTE PRINTING CO.

ADVERTISEMENTS.
ADVERTISEMENTS IN THIS COLUMN are inserted at the rate of 5 cents per line. No advertisement less than 25 cents. Four lines one week 75 cents.

THE BOSS PUMP OF THE WORLD.
The L. J. Russell Patent Non-Freeze-ing Double Acting Force Pump.
Is one of the latest and greatest wonders of the age. It is more simple than any other pump in use, and we warrant these pumps never to freeze, in fact they act as a siphon, and suck the water out of the pipe back into the bottom of the well. It will suck water out of a well or barrel, and if water could be held to the nozzle, it would fill the well or cistern. If your well freezes solid, you can break the ice with the pump. Put one of these pumps in a well thirty feet deep and one man can force water (a solid stream) through pipes seventy feet high and half a mile in diameter. A great many people, as soon as they get these pumps and a short piece of hose, stop their insurance, and by getting pumps, they save fifteen dollars, they save many times from ten to twenty times what the pump costs in insurance every year, and then they save this expression every winter, and many times. The L. J. Russell Patent Non-Freeze Pump is a great pump. Rip, tear, salt, hot water, jerk the pump handle, break that, melt the ice, and you have your water. Put one in your well to fix it—and how they like it, if you are good pay.
W. C. STEVENS.
General Agent for Iowa, Wisconsin and Michigan. Postoffice address Janesville, Wis., Box 1266. oct17d4wly
ESTABLISHED—Came into the enclosure of the subscriber, in the town of Center, on "Three day" September 4th, 1879, one black and white dog; will hunt about 50 pounds. The owner is willing to prove property, pay charges and take the same away. DAVID LOWERY. Center, Sept. 4th, 1879. oct17d4wly

HARDLY EVER! No, Never did I See or Eat Such Splendid Candies
Is what the Ladies say. Try them and be convinced. Made only at HEMMINGWAYS, 15 Main street, Janesville. sept17d4wly

A great many people, as soon as they get these pumps and a short piece of hose, stop their insurance, and by getting pumps, they save fifteen dollars, they save many times from ten to twenty times what the pump costs in insurance every year, and then they save this expression every winter, and many times. The L. J. Russell Patent Non-Freeze Pump is a great pump. Rip, tear, salt, hot water, jerk the pump handle, break that, melt the ice, and you have your water. Put one in your well to fix it—and how they like it, if you are good pay.
W. C. STEVENS.
General Agent for Iowa, Wisconsin and Michigan. Postoffice address Janesville, Wis., Box 1266. oct17d4wly
ESTABLISHED—Came into the enclosure of the subscriber, in the town of Center, on "Three day" September 4th, 1879, one black and white dog; will hunt about 50 pounds. The owner is willing to prove property, pay charges and take the same away. DAVID LOWERY. Center, Sept. 4th, 1879. oct17d4wly

THE BOSS PUMP OF THE WORLD.
The L. J. Russell Patent Non-Freeze-ing Double Acting Force Pump.
Is one of the latest and greatest wonders of the age. It is more simple than any other pump in use, and we warrant these pumps never to freeze, in fact they act as a siphon, and suck the water out of the pipe back into the bottom of the well. It will suck water out of a well or barrel, and if water could be held to the nozzle, it would fill the well or cistern. If your well freezes solid, you can break the ice with the pump. Put one of these pumps in a well thirty feet deep and one man can force water (a solid stream) through pipes seventy feet high and half a mile in diameter. A great many people, as soon as they get these pumps and a short piece of hose, stop their insurance, and by getting pumps, they save fifteen dollars, they save many times from ten to twenty times what the pump costs in insurance every year, and then they save this expression every winter, and many times. BRIEFLETS.

September almost gone.
The city fathers meet to-night for their usual gas and lamp-post.
The latest thing out last night was the wind which kept up its frolic till midnight.

A large oak tree in the cemetery was torn into four strips by the storm of last Friday night.
The Round Table has arranged to open the season on the 18th of October with a study of Henry VIII.

Wheeler's woolen mill is getting in a steam engine ready for business. The mills propose to run, water or no water.
Hogboom & Atwood have placed a steam engine in their wood yard, to meet their increasing demand for wood. It goes "skating."

The funeral of Miss Maggie O'Connor, who died at half-past nine o'clock Saturday evening, will be held at 10 o'clock to-morrow morning from St. Patrick's church.

Dickerson's case is to be called up in the Supreme Court to-morrow. Attorney A. Hyatt Smith will go to Madison to-night to make a motion for a further stay of proceedings.

There is some talk of a grand concert and ball by Janesville's favorite musicians at Leopold's Music and Apollo halls, on Friday evening next. If this takes place it will be one of the events of the season.

At the caucus held at Johnstown last Saturday, I. A. Keith and D. D. Hall were chosen delegates to the Superintendent's Convention, and Collins Smith, Henry McGowan, and Thomas Austin to the Assembly Convention.

Prof. Titcomb and Mrs. St. John are arranging for a musical recital in which their pupils are to join. The recital will be given at Lippin's hall about the 15th of October, and will prove of special interest to all lovers of music.

The examination of H. C. Hadley, closed Saturday, and Justice Prichard held him for trial to the Circuit Court in bail of \$200, which was furnished. The amount involved in this charge of embezzlement amounts to about \$1.

Mr. J. J. R. Poesa started the latter part of last week for Iowa county, on business. While riding along in a stage coach the coach tipped over and he was so injured about the shoulder as to render him immediate return home necessary. The injury is not thought to be of a very serious nature, and it is hoped that he will speedily recover from it.

At a vote taken at the First Methodist church, last night, the pastor and the lay delegate, Col. Bardick, were instructed to urge the annual Conference which meets in Milwaukee, to appoint their next year's meeting at the First Methodist church in this city. It has been twenty years since the Conference met in that church, and ten years since it met in Court Street church.

The fourth regular meeting of the Rock County Pharmaceutical Society is to be held at the Myers house October 25th next. It is intended at that time to take steps toward organizing a State Association and all druggists of Wisconsin are invited to be present, and join in the proceedings. There is to be a display of goods of general interest to the trade, and interesting papers will be read on various topics. In fact it will be an interesting and profitable gathering.

Young Baumgarten has not been brought before the justice yet for his examination. He wants to wait a day or two until he can hear from his folk, who do not seem very anxious to communicate with him. The reports concerning Baumgarten's earlier life are coming in thick and fast. They seem to be all to the effect that he always showed a vicious nature, and that when at school he was so ugly in his relationship with his playmates that he was turned out. Even his relatives seem to have little sympathy with him.

A large and life-like oil portrait of our respected townsman O. B. Ford, occupies a window at King's bookstore and attracts general attention and many very complimentary tributes from those who stop to look at it. It is a most excellent portrait and reflects great credit to the artist, Mrs. G. W. Strunk, of this city. It was ordered by Mrs. B. F. Crockett, who will in due time have it upon her parlor wall as an ever present and faithful reminder of her father. The portrait is elegantly framed in heavy gilt moulding, in keeping with the magnitude and excellence of the work.

Last Saturday, while J. B. Doe, Jr., and J. W. Bates were at Lake Koshkonong, the former became the victim of an accident which was caused by a shell exploding. The shell was one which had failed to go off in the morning, and Doe uncapped it and was picking it to get some dirt out when it exploded. It tore a bad gash between the third and fourth fingers of the left hand, and took off the nail and part of the tip of the middle finger of the right hand. His hands were at once bandaged up, and in company with Will Bates he came to this city and had Dr. Palmer care for the wounds, which are of such a nature as to require some time to heal.

One of his hands was blown all of powder also. The escape from a more serious accident was a narrow one. Several persons were gathered close about him when the charge exploded, but none of them were hurt, and the shell passed through a window in Mr. Pierce's house and barely skipped over the heads of some of the family in the room.

Mrs. Mary Kelley, of Johnstown, and Mr. Andrew Galligan of the same town, had Justice Brooks settle some of their differences Saturday, at King's nearly all day to do so. Mary was Andrew's driving horse and the road and as he got opposite her place, she rode down to the road side, and asked her what he meant by driving her names behind her back. Andrew told her she was a "yellow tip" and all the other epithets she could think of. She threatened to hit her with a stick if he didn't keep away from him. As he turned to go away with the cows she gave him a shove. She got even by having Andrew fined \$1 and costs for abusive language, and he got even by having her fined \$1 and costs for assault. His costs amounted to about \$15, but as she had the luxury of a jury her bill came to about \$38. Andrew managed to pay his, but Mary had to go to jail, where she will have to remain ten days, unless the fine is paid before that time. She has a little babe which she took with her to keep her company.

A GOOD SHOWING.

The Result of the Year's Work at the First Methodist Church.

Yesterday being the last Sabbath of the conference year for the Methodist churches of the Eastern half of Wisconsin, the pastor of the First Methodist church in this city, Rev. H. Sewell, made his annual report to the congregation last evening. It was as follows:

"When I came to the pastorate of this church one year ago I found according to minutes that there were, Probationers—7, Members in full connection 155, making a total of 162. During the past year there have been four deaths, and 22 have left by letter making a total of 26. I have received on probation 60, and into full membership from probation 49, by letter 40, and have reinstated 10, making a total of 99. The roll shows to-day probationers 13, members of full connection 253, making a total of 266, giving a total gain of 104 for the year.

The pastor during the year has baptized 31; married 12 couples; attended 25 funerals; made over 900 pastoral calls, and preached 166 times.

The benevolent collections have been as follows: For Parent Missionary Society, from the church, \$48.75; for the same from the Sunday School \$102.38; for Woman's Foreign Missionary Society \$43, making a total for the Missionary cause of \$194.13. There were 14 for superannuated preachers \$24, and for other benevolent purposes \$70, making a total for all benevolent purposes, \$288.13.

The following is the statement of the financial affairs of the church:

RECEIVED.	
Woman's Aid Society	\$ 75
State collection	256
For rent	352
Subscriptions	342
	\$1665
EXPENDED.	
Pastor's salary	\$1025
Organist	50
Choir	100
Sexton	100
Presiding Elder	75
Repairs	72
Gas, fuel, etc.	123
Interest	61
	\$1664

By this it will be seen that the church has had a prosperous year in all respects, and the outlook is equally encouraging. The \$288.13 for the coming year will be held in two weeks."

DRAWING THE JURY.

This morning the Clerk of the Circuit Court, A. W. Baldwin, Sheriff Comstock, and Justice Wickham drew the petit jury for the next term of the Circuit Court, which opens November 5. The wheel showed a marked liking toward Janesville, as will be seen by the unusually large number drawn from this city. The following is the list:

Leonard House, First ward, Janesville.
Elijah Luman, Bradford.
L O Robinson, Fifth ward, Janesville.
Volney Wood, Johnstown.
W Quimby, Center.
Charles Bowman, Third ward, Janesville.
E C Root, Fourth ward, Janesville.
Matthew Smith, Porter.
G E Gilbertson, Clinton.
George Sherman, La Prairie.
Edward Ward, Magnolia.
John Gandy, Fifth ward, Janesville.
N E Bennett, Fifth ward, Janesville.
J J Boyle, Fourth ward, Beloit.
G A Gilman, Beloit.
L M Gilmore, Second ward, Janesville.
Thomas Croft, First ward, Janesville.
J S Andrews, Magnolia.
George Fellows, Center.
S J James, Fourth ward, Janesville.
Charles Holmes, Milton.
I M Bennett, Union.
H Penland, First ward, Beloit.
Foster Kimball, Third ward, Janesville.
Wilson Brown, Magnolia.
L S Skavien, Newark.
Charles N Ecker, Fourth ward, Janesville.
L S Riden, Milton.
Philip G Barrett, Tipton.
John Spaulding, Fifth ward, Janesville.
Malcom Harper, Magnolia.
F A Hall, Spring Valley.
William Hammond, Porter.
Joseph A Wood, Fourth ward, Janesville.
Gordon Leonard, Third ward, Janesville.
John Kough, Clinton.

PERSONAL.

—Al Kavelage, the lightning rod hand scribbler, is in the city again.

—Judge Conger having closed the term of court at Jefferson is at home again.

—Miss Minnie Gurnsey started for Boston this afternoon for a year's further educational study.

—Mrs. Martin, Miss Robinson, and Miss Kusley, have been visiting Mrs. Belle Holmes for a few days.

—Rev. M. Himebaugh, was in the city yesterday looking after the interests of the Bethel home in Chicago, of which he is the representative.

—Mr. R. L. Colvin, of the Gazette, has been for a week or so at Middleville, Mich., called thither by the sick and sad death of his eldest and only brother.

—Rev. H. Fayville and Rev. H. Sewell will spend most of the week in Milwaukee attending the annual meeting of the Wisconsin Methodist Conference.

—The annual convention of the Congregationalists of this State is to meet in Ripon this week, which will necessitate the absence of Rev. T. P. Sawin from the city for several days.

—Prof. J. C. F. Moore, formerly of this city, and now of the Milwaukee Female College, is engaged in translating from German to English Prof. E. F. Richter's excellent work on "Harmony."

—Among those whose places of business were burned in the Deadwood fire is D. M. Gillett, who was in the jewelry business there. Mr. Gillett was in years gone by a resident of this city, and was employed in a jewelry house here for some time, and was familiarly known as "Dan" Gillett. His old friends here will learn with regret the loss that has befallen him.

THE WEATHER.

REPORTED BY PRENTICE & EVERSON, DRUGGISTS.

The thermometer at 6 o'clock last evening stood at 30 degrees above; at 1 o'clock

at 70 degrees above, and at 7 o'clock p.m. at 78 degrees above.

The indications are for the upper lake region, cloudy weather, with rain, warm southerly winds, falling barometer, followed in north and west portions by winds, varying to cooler westerly, and rising barometer.

OBITUARY.

PARDON H. MERRILL.

Pardon H. Merrill, the father of Hon. S. T. J. B. and C. E. Merrill, of Beloit, died at the residence of the latter yesterday morning, at the advanced age of ninety years and nine months. Mr. Merrill was born at Rowe, Mass., Dec. 20, 1788. He was the possessor of the "goose neck" hoe, and for many years in New England was engaged in its manufacture. He was married in October 1815 to Emily Taylor, of Hinsdale, N. Y., whom he survived nearly three years. Mr. Merrill came to Beloit in 1858. During all his life he was a consistent Christian and was always punctual in his attendance at church until three months prior to his death. The old silver haired man who had a smile and kindly word for all will be missed by many, but all rejoice to know that he has gone to his "home," of which he has talked and sung so long.

THE FIRST CONGREGATIONAL CHURCH.

The following circular has been issued by the trustees of the Congregational Church:

JANESVILLE, Wis., Sept. 27, 1879.

The trustees of the First Congregational Church and Society desire to call attention to a few facts at this the beginning of their financial year. There are only eleven churches in the city; they probably have a seating capacity of less than 6,000, with some 12,000 people sufficiently near and of suitable age to attend public worship. Were these eleven churches filled every Sabbath yet there would be about one-half of the people without church relations. As a matter of fact, however, it is safe to say that one-half of the seating capacity of the churches is unoccupied on the Sabbath, so that the duty of the hour is not so much to build new churches as to fill up those already built. The Church and Society are desirous of doing its full share in promoting a broad and generous charity in the community, and stimulating those fruits of the spirit which are the highest evidences of true manhood and good citizenship.

To this end they congratulate themselves that the Church and Society are substantially free from debt; that the only revenue required is to pay current expenses; that harmony and good will prevails; that their prospects have never been brighter, nor their means for reciprocal good so abundant. There are in this church over 1,000 good seats, and we want them filled. They are to be rented on Tuesday evening, September 30, 1879, at seven and one-half o'clock.

There are about 600 persons connected with this church and society; only a portion of these are heads of families. It is desirable to see adjusted the rental as to secure, if possible, a seat for each member of these several families, and for all others desiring church privileges. To effect this purpose it is hoped that each family will, as far as practicable, rent a full seat. We would especially extend a most cordial invitation to all those who have no present stated place of worship to join with us. The readjustment of the rental makes it important that each person renting should be present at the time appointed.

The Church is a place where all should feel at home, for the Divine Word is "The rich and the poor shall meet together; and the Lord is the Maker of them all." All church fellowship must necessarily be voluntary, and so should all church support. All will be made welcome.

By ORDER OF THE TRUSTEES.

Protect Your Little Ones.

from Cholera Infantum, and yourself and family from sudden attacks of Cholera, Dysentery, Cramps, Diarrhea and Cholera Morbus by keeping Parker's Ginger Tonic always at hand. This superb bowel corrective also speedily cures all disorders of the stomach and the thousands who for years have sought relief in vain from Dyspepsia, Headache, Nervousness, Low Spirits, Sleeplessness, Liver Disorders, Costiveness, Heartburn, Palpitation of the Heart, Distress in the Stomach, Coated Tongue, etc., have found a most complete cure in this comforting invigorant. Buy a 50 ct. or \$1.00 bottle and try it. Sold by all first-class druggists.

CITY NOTICES.

As caloric, electricity, and phosphorus are induced and supplied by Fellows' Compound Syrup of Hypophosphites, it only requires the administration of this successful invention to fortify the feeble, give sprightliness and motion to the torpid, and bring about a condition which not only secures tenaciousness of life but makes it really enjoyable.

RICH SPECULATIONS.

A brakeman on a Western railroad placed \$50 in a combination, which turned a profit of 3% per cent, equal to \$387.50 per hundred shares, netting a profit of \$193.75, in addition to the \$50 invested. A conductor made \$1,176.24 in two combinations. The superintendent of an Eastern railway made \$19,210.13 in three combinations. Others have also made large profits. This system of stock speculation consolidates the interests of thousands into one whole, dividing the profits pro rata every thirty days. The combinations handled with the best skill and experience, attain great success in the stock market. From \$25 to \$100.00 can thus be invested with great advantage. The new explanatory circular, with "uncurring rules for success," mailed by Messrs. Lawrence & Co., Bankers, 57 Exchange Place, New York City.

LOCAL MATTERS.

King's Book Store, Post Office next, now ready.

Chew Jackson's Best Sweet Navy Tobacco.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., we send a recipe that will cure you. FREE OF CHARGE. This good remedy was prepared by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. INMAN, Station D, New York City.

Ladies' and Gents' Stationery.

SPLENDID!

Sold from the little store, 50 North Main Street, Janesville, Wis.

alone, and every one giving perfect satisfaction. It is in every matter for dealers to every season put in print. "Well, now we have got a stove to show up the points of superiority, about all the satisfaction you get is "Oh! we've more grills and nickel plates, and foot rolls," &c.; but when you get down to business, the following points are possessed by the SLENDER, and found in no other stove to date, is what troubles all the boys to get around:

1st. By the Ventilated Base we present one-third more heating surface.

2d. By the Latch fastenings for all doors, in place of Turn Buckles, you are safe from doors springing open, thereby emitting gases into rooms.

3d. By the Sizing and Venting Grates we enable you to have a fresh fire at any time free from dust and waste of coal.

4th. The sectional Fire Pot will last longer and can be replaced at one third the expense of any other.

5th. The Revolving Top swinging within circle of stove, never falls off or gets broken.
